PRESIDENT'S MESSAGE

Plan now to attend the ANNUAL N.C.N.A. CONVENTION in Charlotte, September 30 thru October 2. Complete with bourse, exhibits, educational program, and authentication services, this is the biggest numismatic event in the state each year.

N.C.N.A. is bringing nationally known author Anthony Swaitek from New York state to give a talk and provide help in grading commemorative coins of the United States. You can do your part for the convention by contacting Ted Hendrick for a bourse table or Autence Bason to arrange for exhibit space. Addresses for both are given on the following page. Anyway, come and join the fun.

Through the years the N.C.N.A. has sponsored a number of projects to help collectors and promote numismatics in North Carolina. We have all heard the rule: "Buy the book before the coins," but how often have you seen a book title that you weren't sure you wanted to spend the money on. Well, here is your chance to see the book without having to buy it. The N.C.N.A. is coordinating a project to purchase additional books for the state library where they will be available for loan to any citizen of North Carolina through their local library. What is needed now are your suggestions of titles to be added to those already available.

Your ballot for 1984 N.C.N.A. officers should arrive about the same time as this issue. Let's maintain the tradition of a heavy vote.

See you all in Charlotte.

Yours truly,

H. Fred Simpson, Jr.

The N.C.N.A. JOURNAL is the official publication of the North Carolina Numismatic Association an educational, non-profit organization dedicated to the advancement of the hobby of numismatics. It is published four times yearly in Raleigh, North Carolina.

HOSKINS TO BE AT NCNA

Charles Hoskins of the International Numismatic Society, Washington DC will be at the NCNA Convention for all three days. He will be available on the bourse floor to authenticate coins and discuss the services of the INS.

ANTHONY SWAITEK TO SPEAK

Anthony Swaitek of Kew Gardens, NY will be at the 1983 NCNA Convention on Saturday and Sunday. He is a recognized authority on silver and gold commemoratives and is co-author of THE ENCYCLOPEDIA OF UNITED STATES SILVER AND GOLD COMMEMORATIVE COINS 1892-1954, which received the Numismatic Literary Guild Book of the Year award in 1981. He has testified before the House Subcommittee on Consumer Affairs and Coinage regarding U.S. commemorative coinage and Olympic coinage designs. Cited in the Library of Congress study "Issuing Commemorative Coins: An Historical Overview", Mr. Swaitek was invited by Mint Director Donna Pope to strike one of the first George Washington ceremonial commemorative half dollars and one of the early Olympic commemorative dollars.

He is a full-time professional numismatist and is publisher and editor of SWAITEK NUMISMATIC REPORT. His writings have appeared in *Coin World, Coinage, Forecaster, Rosen Numismatic Advisory, Numismatic Scrapbook, Redbook,* and *Official ANA Grading Standards for U.S. Coins.*

Mr. Swaitek is a life member of ANA, GENA, GSNA, and AINA as well as a regular member of ANS, CSNA, FUN, TNA, WCCC and others. He is a director of NLG, a consultant to ANACS, a board member and lecture panel member of the Institute of Numismatic and Philatelic Studies. He is currently a candidate for Seat No. 3 on the ANA Board of Governors.

OUR COVER

In honor of Mr. Swaitek's talks on commemorative coins, our front cover for this issue is the reverse of the half dollar designed by Laura Gardin Fraser and struck in 1922 to honor the centennial of the birth of Ulysses Grant. This coin has to be the most completely filled side of any U.S. coin.

Grant's life has to be an outstanding example of the strange ways of fate. He was an utter failure as a businessman and as a politician, and wasn't even very highly regarded as a general by his contemporaries, but most Southerners don't realize the debt they owe him. In writing the surrender terms at Appomattox, he knowingly exceeded his authority and forever made it impossible for Yankee hotheads to try the Confederate officers for treason.

N.C.N.A. LIBRARY PROJECT

For some time the North Carolina Numismatic Association has had a Library Project. The purpose of this project is to make available to NCNA members through the State Library of North Carolina as good a collection of numismatic reference materials as possible. Funds have already been donated by other clubs and appropriated by NCNA to begin this activity. What remains is to select the material to be contributed and for the membership to use it.

President Simpson has appointed a committee consisting of himself, David Porter of Swansboro, and Dan Talbert of Kannapolis to make decisions on this matter. They are waiting for your suggestions. Once the material is in the Library, members can use it by going to their local library and requesting it by interlibrary loan or by visiting the State Library at 109 E. Jones St., Raleigh. NCNA feels that this is an opportunity for the members to have available books that neither they nor their local libraries could afford to purchase.

To show what is already available, a listing of authors and titles for all the books included under the heading "COINS" in the card catalog is given below.

Let George Do It!

By

John L. Latham, Jr.

On July 1st the Internal Revenue Service put in effect a regulation which requires commodity dealers, including coin dealers, to report bullion purchases to the IRS. Such reports would have the name, Social Security Number, address, etc., of the person who sold the bullion ("junk coins", gold, etc.) to the dealer. As of this time, the IRS has not advised dealers if a minimum amount of dollars has been established as the minimum amount of a purchase that must be reported upon. Numismatic coin purchases are exempt from the regulation.

The immediate reaction of most dealers to the regulation is that in the future they will purchase only coins having a "numismatic" value. In the numismatic press, however, IRS spokesmen are quoted as "having ways and means of determining whether purchases were for bullion or numismatic purposes". One thing is certain, however, and that is the bullion bar business, that has so dominated coin shows for the past two years, will be strongly affected.

While this is going on at the IRS, Democrat Rep. Solarz, of Brooklyn, is working hard in the House to ban the import of the Krugerrand into the United States. Rep. Solarz is concerned about apartheid and human rights in South Africa. He wants to tax Krugs to provide education for the blacks in South Africa. Solarz apparently is not concerned with the human rights of the prisoners mining gold in Siberia, or the miners in Communist China, so it okay to buy gold Roubles and gold Pandas. The fact that the black South African miners would become unemployed if an import tax is put on the Kruggerand, making it noncompetitive with other one ounce pieces, seems to have escaped Rep. Solarz.

Another good Democrat Representative is busting a gut to pass a bill that includes every objectionable feature of all the precious metal bills introduced to local legislative bodies in the past several years, including the one NCNA fought in 1982.

Who is fighting these regulations and legislative proposals? ANA? NCNA? MANA? BRNA? INS? ANS? Any other State or Regional Coin Association? Not on your life! It's Good Old George, the coin dealer(s) who spends his time and money to protect collectors and his business! Trade Associations, like ANA, like to pretend that they represent "Hobbyists" and have no commercial interests. At the same time, however, they have established a grading service in response to membership demand concerned with financial loss if coins purchased were not the grade advertised for a coin or coins. As a coin dealer I have never sold a coin to a collector who purchased it with the thought he would lose money on it when and if he or she sold it.

Opposition to bad regulations and legislation is the responsibility of every collector and dealer. It is also, in my view, the responsibility of our

Associations. Writing letters to your Congressional Representatives is the best way to eliminate bad legislation. "George" does the best he can, but you need to help!

One thing for sure, whether or not "George" wins or loses, the increase in his overhead costs means the collector will pay for it in the coins he or she purchases.
